

Scott manufacturing systems and patented production solutions will increase your productivity, reduce costs and deliver competitive advantage.

Scott support product enhancements by utilising patented Scott designs developed for Water Heater Systems.

Tank Fabrication Systems

ACCURACY

Six Sigma production achieved.

RELIABILITY

Well designed systems minimise down time and increase production.

INTUITIVE OPERATION

User-friendly technology reduces training time.

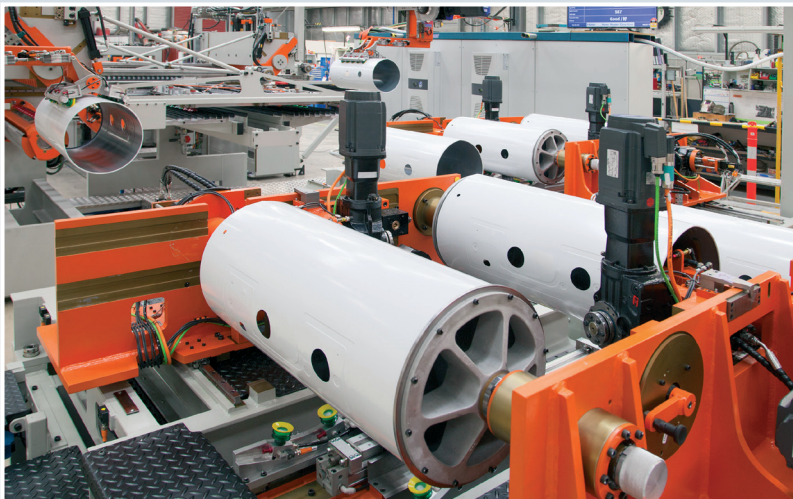

FAST

High production rates.

FLEXIBILITY

Future proof your production with adaptable systems for new model introduction.

Pre-Painted Steel Case Production Lines

ONLINE MEASUREMENT

Optional in-line inspection systems to guarantee product quality.

PATENTED DESIGNS

Utilise patented Scott solutions to improve your production.

IN-HOUSE CAPABILITY

Scott provides the complete manufacturing process under one roof, from fabrication and machining of all components, through to painting, assembly and testing.

All design work and controls software production is based in the same facility in order to promote total responsibility and timely turnaround.
